

Training for Community Pharmacy

On-the-job training

MEGT Institute is the training arm of MEGT (Australia) Ltd and has over 25 years commitment to developing and supporting Australian businesses.

Our client base extends across Australia and includes large national companies, specialty shops, franchises and small owner/operator outlets within metropolitan and regional localities.

Traineeship training for new and existing workers is one of the best ways to build the skills and knowledge of your workforce. MEGT Institute offers training which is nationally accredited and recognised across the Pharmacy sector.

Community Pharmacy qualifications offered by MEGT Institute

This specialist training course will enhance your employability skills with all up to date and relevant information.

Certificate II in Community Pharmacy SIR20107

Certificate II will provide you with the essential skills and knowledge of serving and interacting with customers, merchandising products, understanding the product range and the roles and responsibilities of pharmacy assistants and pharmacists.

Certificate III in Community Pharmacy SIR30107

Certificate III will include developing specialist product knowledge to support customers in the prevention and/or management of health conditions, assisting in the dispensary, merchandising and marketing products, and staff development and training.

The successful completion of Unit SIRPPKS001A *Support the Sale of Pharmacy and Pharmacist-only Medicine* will provide participants with Quality Care Pharmacy Program mandatory requirements for S2/S3 training. This Unit is available within the full Certificate II and Certificate III in Community Pharmacy.

Training delivery

Training can be delivered to meet your individual requirements regardless of whether your business is small, medium or a large national corporation, to ensure you and your staff have the skill required for maximum performance.

Training for Community Pharmacy

MEGT Institute will assist you to establish a personal training plan. We can incorporate your own business policies, procedures and in-house training. We also provide Recognition of Prior Learning or Recognition of Current Competencies.

A variety of training methods and learning support resources are available: such as workplace coaching, workbooks, team sessions, portfolios and mentoring. This range of approaches makes the learning experience both rewarding and enjoyable.

MEGT Institute trainers

Our trainers have extensive industry experience, hold formal industry qualifications, up-to date vocational training qualifications and have a wide range of experience training in the Pharmacy sector.

Commitment and choices

Training and recognition of skills already achieved can be a strong motivator for your employees. This will help their performance and extend their skills base, allowing your business to be more competitive and flexible. We can assist you to determine your training needs and how these align with your business objectives.

MEGT (Australia) Ltd supports an inclusive workplace where gender, age, culture, disability and lifestyle choice are valued. Our access and equity policy fosters and promotes an inclusive learning environment for all.

For more information

MEGT Institute staff are located across Australia and are happy to discuss your training needs and familiarise you with the many other training services and qualifications we provide.

For more information you can contact either our national Head Office in Ringwood, Victoria, or you may prefer to contact your local State MEGT Institute representative.
